

VETERANS SEEKING RECOGNITION FOR OUR SERVICE AND SACRIFICE

Appeal to State Senators and Representatives
and United States Senate and House of Representative, and Candidates

STATE RECOGNITION OF MILITARY SERVICE

Dear Honorable Elected:

As you may know, an appeal to Federal Legislators to establish a Veterans Administration identification card issued to ALL former military citizens (veterans) is in progress. (<http://www.americanwarlibrary.com/surveys/s-111811.htm>).

However, State level governments can assist in this effort simply by including the statement: **“Honorably Discharged American Veteran”** printed on every Drivers License and Identification Card issued to military veterans.

State Drivers Licenses and Identification cards issued to veterans applying for their first cards should be issued without any additional fee charged for the inclusion of this statement, but it is perfectly reasonable that States require an affordable fee to veterans who wish to exchange their current Drivers License or Identification Card for a new edition that includes the statement: **“Honorably Discharged American Veteran”**.

I recognize that my sending you what appears to be a ‘form letter’ constructed by Petty Officer Third Class Greg W. Colyer and The American War Library (amervets.com) be accepted by you as if it were a handwritten appeal and request for your assistance and support as my individual creation, but as Veteran Colyer’s and The War Library’s text simply articulates everything I would have written to you on my own, please accept this not as a form letter but as my personal and individual appeal.

Official State level recognition of military service will help our national conscience, economy and stimulate others to serve our Nation.

Thank you and Most Sincerely,
